

FSM

The BRITEX Smart Saniflush Sensor System is a concealed, mains-powered urinal flusher designed to maximise water savings without compromising hygiene. Ideal for high-traffic environments, it eliminates the need for a cistern while ensuring reliable, automated flushing.

Features and Benefits

- **Intelligent Flush Control** – Microcontroller activates flush only after meeting a user or can be set to a time interval, ensuring maximum water efficiency.
- **Flexible Installation** – Suitable for wall or floor-mounted urinals, connects directly to water supply.
- **Durable Design** – Fully concealed, vandal-resistant system with adjustable sensing range and flush volume.
- **WELS & WaterMark Certified** – Proven performance, efficiency, and adherence to Australian plumbing standards.

Sample Spec

BRITEX 'Smart' SaniFlush Sensor System - 5* WELS rating and WaterMark certified. Microwave sensor with micro-controller 'count' operation. *Single/Dual* solenoid unit supplied with mains-power pack - Product Code **FSM~~X~~**

*RED TEXT may denote a **variable** where one option only is to be selected, a **nominal dimension** that needs to be specified, or an **optional feature** that can be removed if not required. Please refer to the back of this page for additional specification details and options.

HOW TO SPECIFY: Smart Saniflush Sensor System

Sample Specification Code

A **B**
FSM 1 = Smart Saniflush Sensor System
with Single Solenoid Unit

Specification Key

A = Product Code
B = Solenoid Model
1: Single
2: Dual

Model Selector

Urinal Length	Model Required
0 - 1800mm	FSM 1
1801 - 3600mm	FSM 2
3601 - longer	Consult BRITEX

Saniflush Kit Details

	FSM1	FSM2
Sensor Module	1	1
Solenoid Valve	1	2
Air Brake Valve	1	2
In Line Strainer	1	2
24vac Power Supply	1	1
Valve Size	1/2" BSP	1/2" BSP
Supply Required	12mm	12mm

It is recommended that access be provided to the control module and solenoid valve for any future adjustments or necessary servicing requirements.
