

DIRECTORATE OF FACILITIES MANAGEMENT

ADDENDUM #2 TO:

Request for quotation

**Project: ROK TAFE Consolidation Stg.2
- Design and Construct**

**Number: CQURFQ-26-4-DFM
Addendum Issue Date:
10/03/2026**

Note: This Addendum, the Original Request for Quotation and any other documentation issued in relation to this Invitation should be retained by the Respondent for future reference.

1) Purpose of Addendum

The purpose of this Addendum is to provide additional information for intended Respondents with regard to CQUniversity RFQ, Reference: CQURFQ-26-4-DFM. The information has either become available post-issuance of the RFQ document or as a result of enquiries to date.

Note: The information provided under this Addendum must be interpreted in the context of the original RFQ document.

2) Clarifications

Question 1:

We have reviewed the RFT provided and wish to clarify that the only items required to form a conforming response include:

- Resubmission of the Mandatory Criteria (as provided at EOI including Appendix H – Schedules 4,5 and 6)
- The only response forms required are those contained in:
 - o Appendix I - Pricing Schedules
 - o Appendix H – Schedules 4,5 and 6 (as above)
 - o Appendix J – Departures Table (per EOI)

If correct then the above would then remove any requirement outlined in items 2.2.3 – 2.2.7 of Appendix A – Scope of Requirements and Specifications, that refers to Response Forms that have not been provided.

Additionally, where a response to an evaluation criterion was provided at EOI stage, please confirm if you wish these to be re-submitted.

Answer 1:

CQU can confirm:

- The response forms noted at items 2.2.3 – 2.2.7 have not been provided and don't need to be included in your response. These items can be disregarded.
- The only response forms required are those contained in:
 - o Appendix I - Pricing Schedules
 - o Appendix H – Schedules 4,5 and 6
 - o Appendix J – Departures Table (*please note that Annexure A of the contract has had content included – contractors are encouraged to review and re-submit departure table with your response*)
- If items were requested at EOI stage and have been requested again in the RFQ, please resubmit.

Regarding the Assessable Criteria, CQU seeks to gain a clear understanding of each tenderer's capability to successfully plan, manage, and deliver the project now that detailed drawings, sequencing and program requirements have been provided.

Question 2

Upon reviewing the received tender documents it appears that the below folders are empty:

Building 92 - WAPS

Building 21 - Certification

Building 19 - Structural

Building 76 - Structural

Could you please provide the documents that were intended to be in these folders, if there are any?

Answer 2:

Tenderers are referred to Addendum 1 – noting the re-release of drawings for Building 92, which includes WAPS.

Regarding Buildings 21, 19 and 76. That is correct. No drawings exist for these aspects.
