

DIRECTORATE OF FACILITIES MANAGEMENT

ADDENDUM #4 TO:

Request for quotation

**Project: ROK TAFE Consolidation Stg.2
- Design and Construct**

**Number: CQURFQ-26-4-DFM
Addendum Issue Date:
13/03/2026**

Note: This Addendum, the Original Request for Quotation and any other documentation issued in relation to this Invitation should be retained by the Respondent for future reference.

1) Purpose of Addendum

The purpose of this Addendum is to provide additional information for intended Respondents with regard to CQUniversity RFQ, Reference: CQURFQ-26-4-DFM. The information has either become available post-issuance of the RFQ document or as a result of enquiries to date.

Note: The information provided under this Addendum must be interpreted in the context of the original RFQ document.

2) Clarifications

Item 1:

In the Tender Documentation, the Mechanical Specification has been copied into the 'Hydraulics Consultant' in lieu of the hydraulic specifications. Could we please get this document issued?

Answer 1:

Please see Hydraulic specification attached to this Addendum.

Item 2:

We have been unable to locate any fee proposals from the incumbent consultants that have been preferred, within the tender documentation - to complete the design and undertake construction services. Have these been provided to CQU or are we to request these?

Answer 2:

CQU has received an estimate from the incumbent consultants for completion of design to 90% level in accordance with CQU's Design Standards Manual – 90% design milestone.

Design to 90% under Novation (all fees are EX GST)		
Discipline	Company	Fee estimate
Architectural	ThomsonAdsett	\$425,000
Landscape	Tract	\$25,990
Structural	WSP	\$49,500
Civil	WSP	\$29,100
Building Services	WSP	\$86,000
Acoustic	WSP	\$8,900
Traffic	WSP	\$8,700
Access	Tract	\$42,000
Certifier	Knisco	\$30,000
ESD	WSP	\$9,500
Audio Visual	VideoPro	included in 30-60% fee
Fire Engineering	WSP	\$7,950
TOTAL		\$722,640

The estimate is based on the below price Clarifications and Exclusions. Contractors are encouraged to reach out to the Consultant team to discuss.

Architectural & Subconsultant Team

- This fee covers the completion of documentation only.
- The proposed fee is provided on the condition that the documentation is under a single contractor at the end of 60-90% phase and that its 1 x documentation package that is documented all at the same time.
- The fee is based on 12-weeks of documentation.
- We reserve the right to negotiate the terms of the deed of novation contract proposed by CQU at the point of novation to a building contractor.

- This fee does not include construction phase services. A separate fee for construction services can be provided once a contractor has been appointed and a defined scope of construction services is confirmed by the successful contractor.
- All travel expenses are excluded from these professional fee estimates.

If the design review at the 60% milestone results in significant client led changes or value management initiatives to the design, we would like the opportunity to reassess and adjust our fee.

Building Services, Sustainability, Structural, Civil, Acoustics, Fire Engineering, Traffic Engineering

WSP

Fees noted above are indicative only and would be subject to review once the scope and programme is known.

Landscape- Tract

This fee is for 100% design documentation.

We understand that we will be novated over to the awarded contractor and that timeframes for delivery will be determined by the programme submitted by that awarded tenderer and in conjunction with the lead consultant. For the purpose of this proposal, we request that at this point in time we will negotiate with the D & C contractor our role and fees associated to delivery, upon their engagement. We do understand that our role will be inclusive of, but not limited to:

Provide continual Design Development to support the 'Approved for Construction' drawings and specification for the New Trades Building.

Item 3:

Please see attached with this addendum:

- CQU's overall service drawings for North Rockhampton campus for Contractors information.

This information is provided to assist Tenderers as a guide only. The Contractor is responsible for confirming the validity of this information and for undertaking additional testing if it deems necessary.
