

SCOPE OF SERVICES	
1	Review the required objectives of the Fire Engineering Brief / Report.
2	Identify the proposed active and passive Fire Protection Systems based on previous fire engineering analysis of similar alternative solutions.
3	Attend meetings with relevant fire, rescue and emergency service in the state in which the project is located and the Building Certifier.
4	Use expert judgment and supporting quantitative analysis to assess the proposed building.
5	Prepare a Fire Engineering Brief (FEB) outlining the proposed solutions (and alternative if applicable) for the building and design methodology to demonstrate compliance with the Building Code of Australia and the relevant fire and emergency service authority in the state in which the project is located.
6	Issue Fire Engineering Brief for applicable authority approval.
7	Once approved, prepare a Fire Engineering Report (FER) confirming the demonstrated proposed solutions for the building and design methodology, in accordance with the Building Code of Australia and the relevant fire and emergency service authority in the state in which the project is located.
8	Issue Fire Engineering Report for applicable authority approval.
9	Submit relevant documentation to Paynters inclusive of a Form 15 Compliance certificate for building design or specification; who will issue to the coordinating Building Certifier for lodgement with the Statutory Authority for approval.
COMMISSION OF SERVICES	
10	All Consultants are engaged using a Paynters Consultancy Services Agreement, including the Conditions of Consultancy Agreement and Acknowledgement of Consultancy Services Agreement / Insurance Details.
11	All work undertaken as part of this commission, shall be in accordance with the relevant parts of the Building Code of Australia, legislation, ordinances, regulations, by-laws, orders, proclamations, relevant standards and the laws of the state or Territory where the Project is located.
12	Consultants shall at all times exercise reasonable skill, care and diligence in the performance of the brief in accordance with the ethics of their profession.
13	Where budgets are prepared and / or tenders assessed as part of this commission we require that these values remain confidential.
14	Any request for information from a third party should be referred to the Paynters' representative responsible for this project.
15	It is the responsibility of all Consultants to obtain (where applicable) a copy of the Client's brief and to produce their documentation to reflect the most cost-effective building element that the brief calls for.
16	Any alternations to the design or direct communications with the Client (once a Project Manager is appointed) must be cleared with the Project Manager so that cost and overall construction implications can be monitored.
17	The Architect is the principal coordinating Consultant and shall be responsible for all document and design coordination.
GENERAL NOTES	
18	Paynters Project Reference numbers are to be used on all correspondence relating to this project.
19	The consultant shall regularly coordinate with other project consultants throughout all phases of the engagement and review their documentation to avoid discrepancies in documentation and clashes of on-site installed items of the various disciplines.
20	The Consultant shall not change the project personnel without written prior approval from Paynters.
21	Paynters will manage all Client communications and Client project presentations throughout all phases of the project.
22	The Consultant shall provide a Safety in Design Risk Analysis in the Paynters template format as required by the Safe Design of Structures Code of Practice 2013 and participate in a Safety in Design meeting with the whole of the project team.
23	All travel, accommodation, printing and all other consumable disbursements are included in this agreement.

24	The Consultant shall prepare documentation so as to comply with Hold Points as outlined by Paynters and shall not proceed to the next phase without prior approval from Paynters.
25	The Consultant shall provide the CV of each Design Consultant to enable inclusion in the Competent Person's Register by the Certifier in accordance with Part 5 of the Building Regulations 2006.
26	Any alterations, omissions or additional works required by Paynters to the documents will be undertaken by the Consultant in accordance with the Consultancy Services Agreement.
27	Should the Consultant have submitted a proposal for works detailed in this Agreement and should conditions in this Agreement and the Consultant's proposal conflict, then the conditions detailed in this Agreement shall prevail.
28	The design will comply with all legislation, subordinate legislation, relevant Australian Standards and requirements of Authorities applying to the works.
29	Documents / drawings shall be uploaded to the Paynters secure file sharing site (Procure) with a transmittal emailed to the Paynters' Project Team.
30	The responsibility of notification of documents / drawings being available for collaboration and coordination shall be on Paynters. Notification shall be in the form of a transmittal issued from Paynters' document management system (Procure).
31	Copyright of emailed information is the responsibility of the sender and receiver.
32	All Invoices / Claims must reference the Consultancy Services Agreement Number and the Project Reference. Refer to Clause 4.2 of the Conditions of Consultancy Agreement. The Consultant shall submit detailed breakdown by building and phase supporting their claim. Note that no payments shall be made until such time as the signed acknowledgement of Consultancy Service Agreement together with Certificates of Currency of Insurances have been provided to Paynters. Claims for Payment must be submitted to accounts@paynters.com.au . Invoices emailed directly to individuals shall be rejected.
